Ok, both Justice and Kim (Chief Director and Research Director) say that they never received my email. I have given Justice a copy and he says that he will request a meeting with the DDG to finalise this matter. So hopefully something happen this time ...

Hi Rob, thanks for the feedback.

Would it be possible from your side to follow up with them as DEA have insisted that I can only submit the Draft Environmental Impact Assessment Report once I have comment from all authorities.

Thanks

Giles

Hi Giles

I did draft a response giving the views from the demersal trawl research group and sent it to the Chief Director and CC'ed to the Director of Research and to Sassa Pheha. I followed this route because I don't have a mandate to respond directly to you on behalf of DAFF, so I sent it to those within DAFF who were on your mailing list in the hopes that it would nudge them to respond – they would then only have to add to my draft. I got back from sea on Monday and was wondering whether management had done anything in response. I know that there have been problems with our email system so I will make enquiries to see whether anyone actually received my draft.

Cheers
Rob

Hi Rob

I am just following up on the comment from DAFF on the MTN ACE Cable System. I know you were going to draft something and pass it on to someone else in your department for signature and distribution. I still have not received any written comment as yet.

Regards
Giles
