1. Please consider the following issues as part of the Environmental Impact Assessment: *(Please use extra sheets if needed)*

We recommend that survey data be reviewed by an archaeological specialist so that heritage impacts may be assessed in full. Should the proposed development pose a threat to archaeological or palaeontological resources on land, Heritage Western Cape would need to be engaged as the competent authority.

I suggest that the following stakeholders also be involved in the process:

Name	Colette Scheermeyer
Organisation	Heritage Western Cape
Contact Details	colette.scheermeyer@westerncape.gov.za

Thank you for your participation
