Hi Paul,

We the Mayibuye Game Reserve are opposed to the proposed eskom plans. It poses are massive negative impact on the luxury game reserve housing estate we are currently developing both visually and environmentally not to mention the economic impact it will have which could be catastrophic. With regards to enviroment the proposed site sits slap bang on an area which is home to the critically endangered oribi and also right in the middle of the proposed expansion area for a greater 25 000 ha game reserve. We also have the African Bird of Prey Sanctuary on our land and this proposed works could close the centre down. This facility is of critical importance to the scientific research and protection of our large raptors. If you require any further information on what I have said please do not hesitate to ask

Warm Regards

*David Bozas*

Dear David

I was surprised that neither you or a Mayibuye representative came to the meeting on Tuesday. Please confirm though that you did receive the email below and can access the required documents. Please make sure you provide comments by 9 June so that we can ensure all your concerns are investigated during the impact assessment.

Regards  
Paul
