

PROPOSED CAPACITY IMPROVEMENTS TO NATIONAL ROUTE 3 (N3) FROM HAMMARSDALE TO PIETERMARITZBURG

Public Open Day

The South African National Roads Agency SOC Limited (SANRAL) is responsible for improving, managing and maintaining the network of national roads which act as the “economic arteries” of South Africa.

Welcome to our poster presentation that describes SANRAL’s proposed capacity upgrades to sections of the N3 between Hammarsdale and Pietermaritzburg and the environmental authorisation for this project, as required by the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA).

The purpose of this Public Open Day is to provide interested and affected parties (I&APs) detailed information about the proposed road upgrades, affected properties and the environmental assessment process. Representatives of the environmental and engineering teams are present to discuss issues and answer your queries.

Please use this opportunity to engage with them, and to submit your comments in writing on the Comment Sheets provided.
