**Deadline for comment:
15 December 2016**

I WOULD LIKE TO CONTINUE TO PARTICIPATE IN THE IMPACT ASSESSMENT PROCESS
YES NO

PLEASE DELETE MY NAME FROM THE PROJECT MAILING LIST
YES NO

Comments on the Draft Environmental Impact Assessment Report (Please use extra sheets if needed):

1. Development is contrary to Strategic Development Plan of the Municipality - it is industrializing the Northern side of the highway in a natural area where wildlife abounds.
2. Negative aesthetic impact on the area - property values will be severely impacted. (Industrial nature of development)
3. Power lines unsightly and impact surrounding areas
- *4. We requested geotech report for Wartburg site and the report on the cost impact - not provided.
5. Development impacts on airport site located on the adjoining property - Kingthorpe & Bar Circle
6. Development impacts negatively on developments that had been planned for the area prior to the proposed Eskom development (Kingthorpe Game Reserve, Mkhonto/Acaciahoek)
- *7. The property where the development is proposed is under a land claim which has hindered all other development in this area - so the claim that the sub station is there to provide power for the area is non-sensical - no development is allowed or is happening because of the land claim!

Thank you for your participation
