Good day

The portion of the line is not going through our plantation as per map below.

Thanks

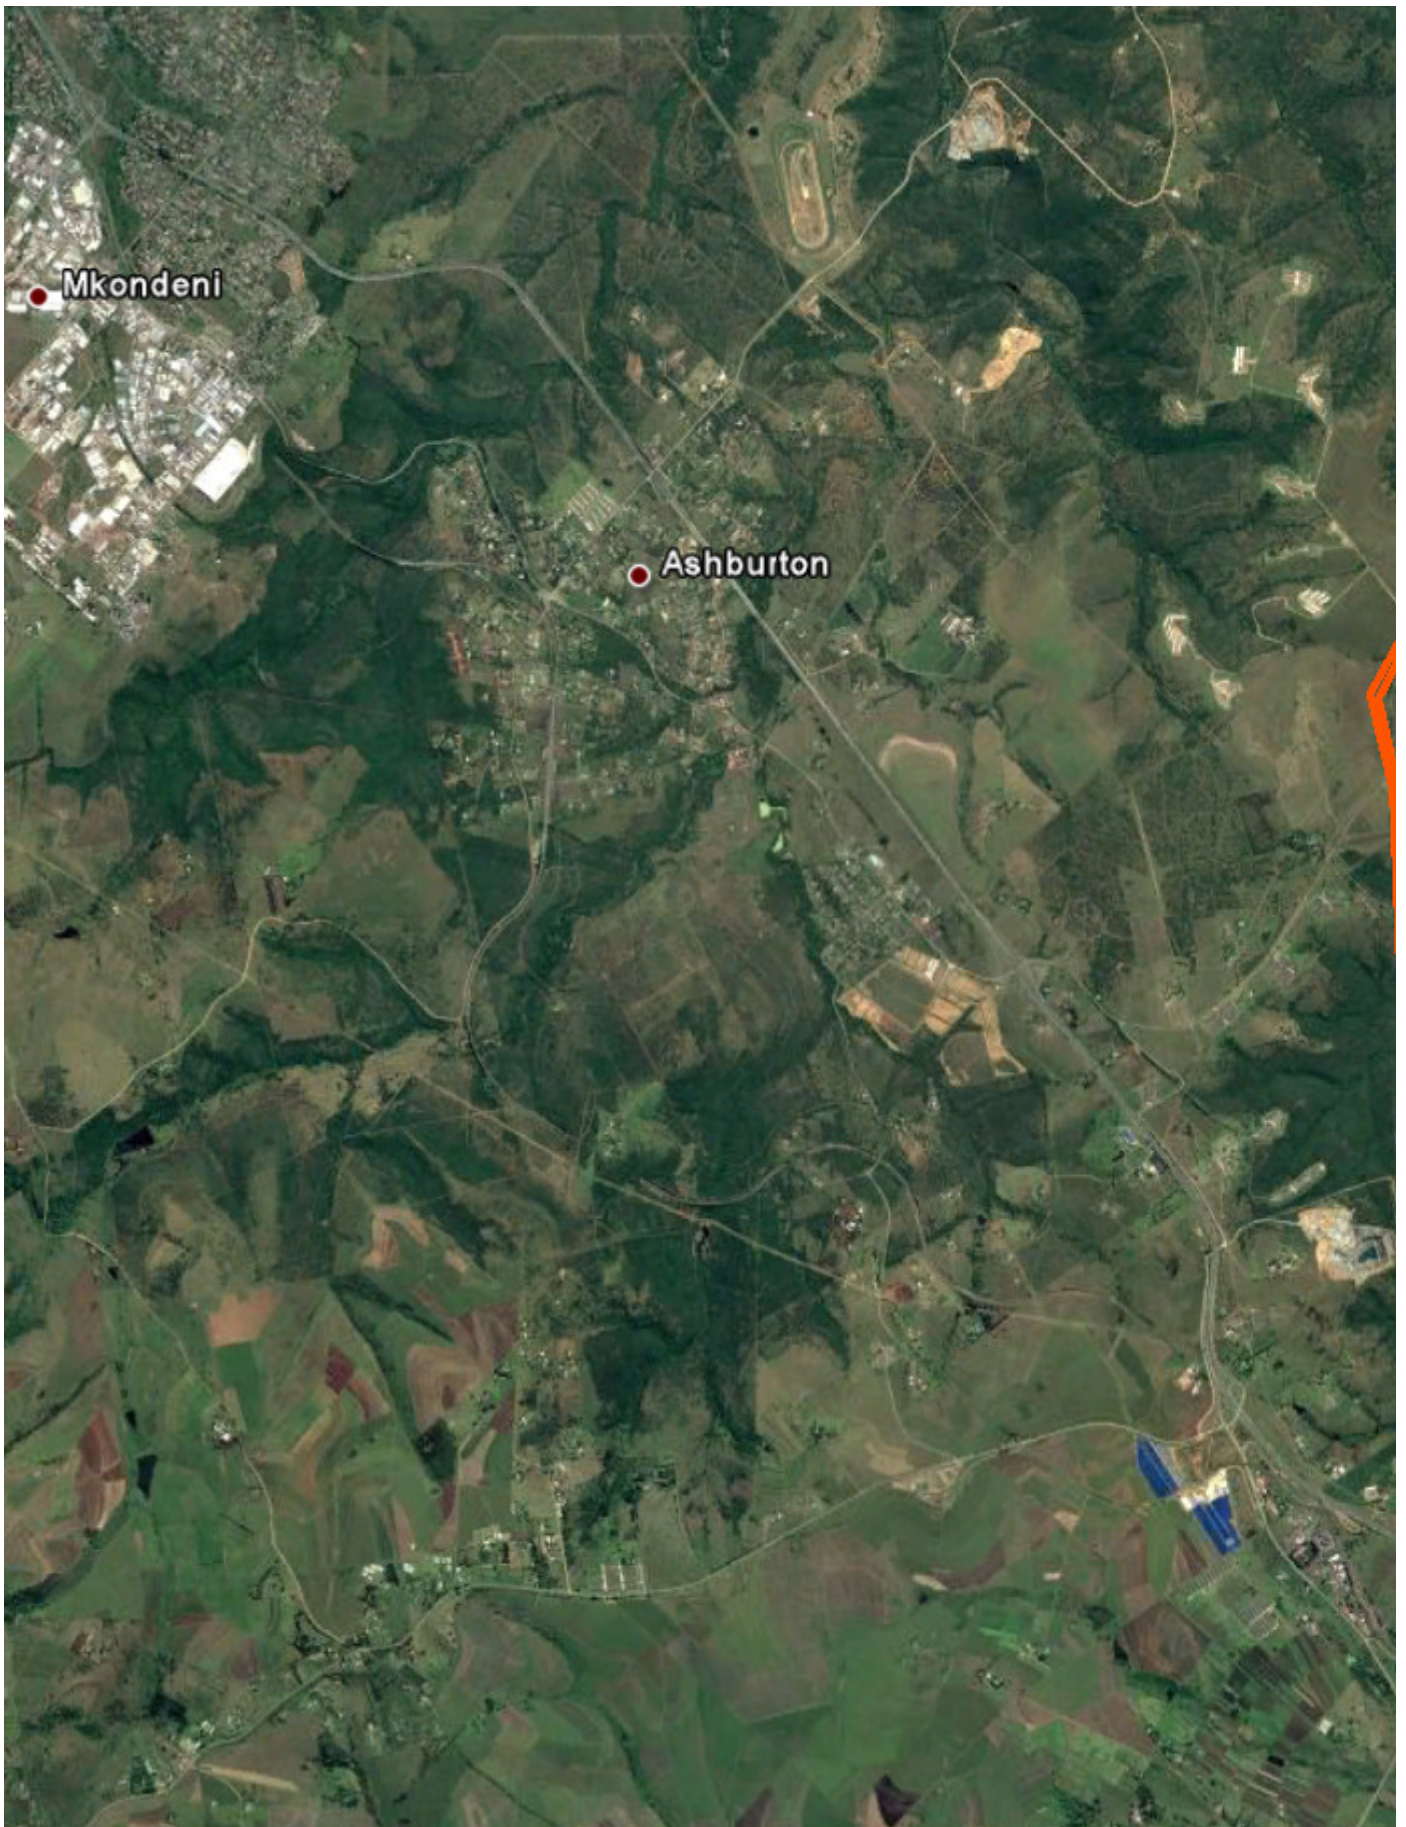

Hetta

Hi Hetta. The data only shows a small section of the proposed line near Ashburton, so it is very far away from anything we own

Paul

Morning Paul

Can you please overlay this data from the attached so that I can if it affect us.

Thanks

Hetta

Good Afternoon Hetta

We are in the process of going through all our project information, and cannot see if we responded to you or not. In the latter case, I apologise for the very late response. I have attached the KMZ files for the infrastructure under the Isundu Application. I don't think that SAPPI is affected by these components. However, if you would like to comment, please could you submit it this to myself within the next two weeks as we are still in the process of finalising the EIA comment.

Regards,

**Mareike Straeuli**

Good day

Would it be possible for us to get the shape files of the line and substation as we need to overlay it on our property maps to understand the impact that it would have on our plantation and property.

Kind Regards

Hetta van der Walt
