Dear Brian

No further public open days are scheduled currently for this Basic Assessment Process. If you have not already done so, please could you submit your contact details and ACER will register you on the project database and you will be kept updated regarding the environmental process.

Please feel free to submit further specific comments, queries and concerns (comment sheet attached) and ACER will address them during the BA process or forward them to the engineers as relevant. Note that a draft Basic Assessment Report will be circulated for public review, which will afford interested parties a further opportunity for comment.

Kind regards

**Charlene Weber**
