Subject: SANRALs proposed widening of the N2 and N3 in Durban area
Attachments: N3 Batch 1 BID (Rev 1)08.08.16.pdf; N3 Batch 1 Comment Sheet English (Rev 0)08.08.16.pdf

Good Day Johan

ACER Environmental Consultants would like to notify you of SANRAL's proposed widening of the N2 between Solomon Mahlangu and Umgeni interchanges, and the N3 between EB Cloete and Key Ridge interchanges. These roads are currently at full capacity and SANRAL plans to provide additional lanes and upgraded interchanges to cater for the next 30 years. (See attached Background Information Document).

A Comment Sheet is attached, should you like to register with the project and receive further information over the course of the environmental assessment process.

Please also note that a **Public Open Day is being held on Tuesday 16th August at the Westville Country Club (open to visitors between 3 and 7 pm)**. It is part of the environmental authorisation application process and provides an opportunity for interested parties to obtain detailed information and a chance to speak to directly with the design engineers and SANRAL representatives.

Kind regards

Ashleigh McKenzie
