Good Morning

The letter you received was a notification that you are an Adjacent Landowner to the proposed project. Which means that your property itself will not be impacted on, rather that you will be located next to the proposed project. On our website www.acerafrica.co.za under 'Current Projects' is a tab for the "Proposed N2 and N3 Capacity Upgrades". This link will take you to a dropbox, that has all the latest information open to the public at the moment. There is a tab on the dropbox called "Public Open Day Posters", under Poster 7 you can see what the proposed upgrades to that area will be.

I hope this helps to explain the project to you, if not please do not hesitate to contact me and I will put you through to the Project Manager.

Regards, Mareike

Dear Mareike

Thank you very much for your prompt acknowledgment of our correspondence.
Is there anybody we can contact in the interim to better understand how this project may impact on our property?
We own and live in Assagay on two adjoining properties bordering directly onto the M13 West-bound carriageway at the junction of the M13 to the N3.
Kind regards
William Horsfield
