Dear Jeanette

At this stage we do not have more information than that already sent. However, the engineers have indicated that information will be available from next week and have requested you drop in at one of the Open Days next week so that they can show you what is planned.

Kind regards, Mareike

Good Morning Jeanette

Thank you for your email. Please note that we have sent your comment to the engineers for that section.

The best would be for you to come to the public open day, where all the engineers and SANRAL persons will be present to answer your queries. However, I will send through the response once received from the engineers.

The public open days will take place at the following venues:

Venue	Date	Time
-------	------	------

Cato Ridge Country Club, Chamberlain Street, Camperdown Rural	28 May 2018	Any time between 3 pm and 7 pm
Vine Church, Lynnfield Park, Ashburton	29 May 2018	
Maritzburg Golf Club – 38 New England Rd, Pietermaritzburg	30 May 2018	

Please could I ask you to send through the following information so that we can add you to our project database:

- Name & Surname
- Organisation/or if you are a private landowner
- Contact number
- Address

Kind Regards, Mareike

Good morning thank you for your reply

i understand that construction will be taking place on the n3 at the new england road bridge but will it be affecting the new england road going into the town direction

is that road going in to the town new england road also going to be affected

thanking you vi

Good Day Vi

Thank you for your mail. Yes, the project does involve New England Road. Please refer to the attached Background Information Document and, for further detail, you are encouraged to attend one of the Open Days as advertised (details also in attached letter) where you can speak directly to the design engineers involved, to gain more information and discuss any concerns.

Please fill in the attached comment sheet so that we can register you as an I&AP for this project and keep you updated on the environmental application and assessment process. Please also record any issues you would like to raise, for consideration in the environmental assessment.

Kind Regards,

Mareike Straeuli
