Please provide your comments on the draft report for BA5: Capacity Upgrades to the N3 from Lynnfield Park Interchange (km 30.6) to Gladys Manzi (formerly Murray) road (km 6.1).

We object to the proposed interchange designs for several reasons which are listed.

1. The design affects our access to the property we own. The proposed access is not acceptable as we have spent 9 years in the planning process to obtain an EIA and development rights for the property.
2. Your proposal makes for a provision of a right of way over our property to service our immediate neighbours and those beyond. This brings the proposed road unacceptably close to our homestead and farm infrastructure, as well as infringing on our development plans which have been disclosed since 2007.

NB-Continued on attached e-mail.

I suggest that the following stakeholders also be involved in the process:
