Comment:

The owner of the plot reference number above has been advised that the plot will be impacted by the capacity improvement works. However, the owner has not received communication of what the actual impact will be i.e. proposed infringement on the plot by the capacity improvement works. Neither has the owner been contacted by SANRAL to commence the compensation negotiation as detailed in the Draft Basic Assessment Report (BAR) and Environmental Management Programme (EMPr) report on the Acer website. We await and expect further communication around the detailed and exact impact on this plot including the compensation proposal, prior to the commencement of any works.

Many thanks
Linesha
