Good Afternoon Mareike

As per our discussion today would it be possible for you to please contact Sanral to find out what the design for the Queen Elizabeth Road in Camperdown is going to be and to what impact it will have on the road itself and our business. As a company with plans we are actually sat in limbo as to what is going to happen.

If someone could please get back to me it would be greatly appreciated.

Many Thanks

Good day Beverley

I have had a response from SANRAL saying that the design is not yet finalised however it has changed quite a lot. They will contact you directly in due course to discuss the new design and the impact of it on your business. I hope this answer your question.

Kind Regards,

Good Afternoon

I spoke to you earlier about our business premises and how we were approached quite a few years back by a company called Hatch Goba about our business premises being acquired for this new improvements to National Route 3 (N3) from Hammersdale to PMB. We present to them the impact this would have on our business from a financial point.

We then a while later approached SANRAL themselves and I have sent you some correspondences that we got back from SANRAL. Myself and my Husband Ashley James are the owners of the business premises and the address is 53 Queen Elizabeth Road Camperdown.

Please can you take time to look at these and get back to us at your earliest convenience.

Many Thanks

Regards

Beverley James
