Reka.Kalicharan@kznedtea.gov.za

RESOLUTION OF THE COUNCIL MEETING HELD ON THE 28 MARCH 2019, AT THE MKHAMBATHINI COUNCIL CHAMBER

REPORT BASED ON THE SANRAL SIP2 PROJECT: DRAFT BASIC ASSESSMENT REPORT AND ASSOCIATED WATER USE REGISTRATION DOCUMENTS FOR REVIEW AND COMMENT: N3 CAPACITY UPGRADES FROM THE CATO RIDGE INTERCHANGE TO LYNNFIELD PARK

RESOLVED

LC9.12/28.03.2019

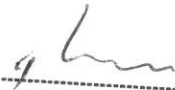

That:

1. The applicant be advised that Council supports the application for capacity upgrades to the section of the N3 which traverses the Mkhambathini Municipality provided that appropriate mitigative measures be applied to minimise in situ impacts.

This support is also conditional on the following:

- 1.1 Clarification from SANRAL on the proposed usage of the recently purchased Rainbow properties at the Camperdown interchange and east of the Lynnfield Park Interchange. Both sites will require individual Environmental Impact Assessments and will need to be rezoned accordingly in terms of the Spatial Planning & Land Use Management Act.
- 1.2 The proposed usage of Erf 106 Camperdown (ex Rainbow site on the Camperdown I/C) for stockpiling of rubble and fill is not supported as the negative impacts of dust, noise, amenity etc. will directly impact the urban area which is unacceptable. The wetland areas around the site have not been taken into account, neither has the proximity of the Camperdown Dam.
- 1.3 The submission of a site development plan for the Lynnfield Park property which takes into account the proximity of the Mayibuye Game Reserve which shares its boundary.
- 1.4 The submission of a full rehabilitation plan for the affected areas.

- 1.5 The inclusion of the Mkhambathini Urban Scheme provisions which has been omitted from the Annexures.
- 1.6 Clarification regarding the "formal households to be relocated" and which the list of businesses being disrupted. This is not clear from the list of properties attached as an annexure to the submission.
