Dear Carina,

I would like to register as an IAP for the proposed Mtunzini sanitation system upgrade and expansion.

My immediate comments are:

1. Will there be discharge into the uMlalazi estuary?
2. If so, I require details on the design, metrics and management protocols that are being proposed.
3. Our fish farm produces fish for human consumption and any increase, above the current status, of the bacterial count in this system, will jeopardise our business.

Regards,  
Neil
