Subject: Equiano Cable Project - EIA

Hi Xolani

Please could you assist me with the following:

Robben Island offshore of Cape Town has been declared a Marine Protected Area
The Robben Island MPA consists of three zonation types namely:

- The Robben Island Restricted Zone (RIRZ)
- The Robben Island Controlled Zone 1 (RICZ 1)
- The Robben Island Controlled Zone 2 (RICZ 2).

The proposed EQUIANO route passes through the MPA through the RICZ 1 and misses the RIRZ.

My understanding is that the South African National Parks is formally designated as the management authority for this Marine Protected Area.

Do you by any chance know the correct office or person to contact at SANPARKS to discuss this project and to add to the project DATABASE?

Regards
Giles
