Good Day Mrs Biyela

In response to your telephonic query, please note that your property is not directly affected. This is confirmed in the draft basic assessment report (comments and responses Appendix E).

Carina is away today so I am unable to check on what correspondence she sent out to you last year, however I do attach the confirmation from the engineer that your property is not affected.

Please note in addition, that although ACER is running the environmental process, SANRAL deals directly with the property owners if there is any property acquisition involved.

Kind regards

**Ashleigh McKenzie**
